- **PROJECTS SUMMARY**

- **Refearn (Job Referral Platform):** Refearn is a referral-based web application that connects job seekers with employees working in various companies. Employees can register on the platform and post job referrals from their organizations. Job seekers can explore these referral posts, request referrals for job openings, and also request additional services such as resume review and interview guidance from employees.

**Technologies Used:** core PHP, JavaScript, jQuery, ajax, html, CSS.

**Role & Responsibilities**

- Backend Developer

- **Autocrewz (Automobile job portal):** "Autocrewz" is an automobile job portal where candidates can register and find jobs based on their preferences. Employers can also register by completing their company profile. Once the profile is complete, employers can post job openings. Each job post is reviewed and approved by the admin before it becomes visible to candidates. After approval, candidates can view and apply for the listed job opportunities

**Technologies Used:** core php, JavaScript, jQuery, ajax, html, CSS,mysql.

**Role & Responsibilities**

- Backend Developer

- **MCM VENTURES ( ERP Software ):** MCM Ventures is a Laravel-based software designed to manage inward and outward cement stock in godowns. It enables accurate entry of deliveries and dispatches, including quantity, vehicle details, dates, and documents. The dashboard displays real-time stock, low-inventory alerts, and movement history. with secure user access and reliable reporting ,it reduce manual errors and improves efficiency in construction material warehouse operations.

**Technologies Used:** Laravel10 , Bootstrap,JavaScript, jQuery, ajax, html,CSS.

**Role & Responsibilities**

- Backend Developer

- **Dharamai (Fractional ownership website):** “Dharamai” is a real estate project offering fractional ownership opportunities. Here, you can invest in fractional ownership of land—meaning you can purchase a portion of land according to your budget and receive a monthly ROI (Return on Investment) along with other benefits. Additionally, you also have the option to purchase a full plot. However, the core focus of Dharamai is on fractional land ownership, making real estate investment more accessible and profitable.

**Technologies Used:** Laravel10, JavaScript , jQuery , ajax, bootstrap, html, CSS.

#### **Role & Responsibilities**

- Backend Developer

- **Smart-school (School-Parent-Driver Connectivity System) :** Developed a Laravel-based web application that connects schools, parents, and van drivers through a secure reference code system. Schools register and share a unique code with parents and drivers, allowing them to link to the school network. The system features real-time van tracking using Google Maps API, enabling parents to monitor van location and receive arrival alerts. Role-based access ensures secure dashboards for school, parents, and drivers.

**Technologies Used:** Laravel10, JavaScript , jQuery , ajax, bootstrap, html, CSS.

#### **Role & Responsibilities**

- Backend Developer
